REMARKS/ARGUMENTS

Reconsideration of the application, as amended, is respectfully requested.

A substitute abstract is submitted herewith. Substitute drawing Figure 4 is submitted, reflecting the changes described in our earlier amendment.

The description has been amended to call out the element numbers added to Figure 4, and call out the "which [CDMA signal] the receiver receives 412 as a spread spectrum communications signal." No new matter is believed to be added by these changes.

In the Office Action, claims 1-17 were (provisionally) rejected under the doctrine of obviousness-type double patenting over claims 1-13 of Application 10/072,083. Accordingly a Terminal Disclaimer to U.S. Patent No. 5,365,544. The Terminal Disclaimer states in part, "This agreement runs with any patent granted on the instant application and is binding upon the grantee, its successors or assigns." Accordingly the present application is thereby disclaimed against Application 10/072,083.

It is therefore submitted that the application, as presently amended, is in a condition for allowance. Such allowance at an early date is respectfully requested.

If the Examiner feels that a conference will expedite the prosecution of this case, the Examiner is cordially invited to call the undersigned. To that end, an Examiner's amendment to this case would be welcomed and appreciated.
